# AETNA — YOUR SOLID SURFACE RESOURCE

**Dedication • Resource • Inventory • Value-added • Experience**

## A “Solid” new product, with a big difference

Aetna Plywood Inc., the leading distributor of wood and laminate products in the Midwest, has added a new solid surface product to its line-up, called Meganite.

Meganite is a 100% acrylic solid surface material, 1/2" thick, which not only has the sophisticated color and particulate of the leading brand, but also has the same performance characteristics, workmanship, quality, and anti-bacterial benefits — at prices 20-40% lower. Meganite has been tested against a host of ASTM and NEMA standards, and meets the performance characteristics that are essential for residential and commercial applications.

Meganite can be used in both residential and commercial applications, such as kitchen countertops, bath vanity tops, sinks, reception desks, conference tables and restaurant interiors.

Aetna offers the Midwest’s largest selection of hardwood and softwood plywood, plastic laminate, panel products, lumber and woodworking hardware. Aetna Plywood is the exclusive provider of Meganite in Illinois, Wisconsin, Indiana, Ohio, Michigan, Minnesota, and Iowa.

### MEGANITE™ 100% Acrylic Solid Surface

- 10-year warranty
- Anti-bacterial
- Stain resistant surface
- Renewable surface
- Water-tight, inconspicuous seam
- Undermount bowl options
- Unlimited edge details
- 1/2" thick, solid throughout

**Aetna is pleased to introduce: Gary Schimmel. Gary is our Solid Surface Sales Manager. With over 20 years of experience, we are confident that he will be able to assist you in your solid surface selections.**

# TRANSOLID® — Now In Stock for Next Day Delivery

**Undermount Solid Surface Sinks and Bowls** Transolid is easy to mount in virtually any countertop material, including solid surfaces, granite and natural stones. The best warranty in the industry makes Transolid Sinks and Bowls the ideal choice for quality, durability and style. A premium solid surface material that is renewable designed to complement popular designer colors.

**Why Transolid?** Because they are solid. No air pockets, no layering, no fiber fillers. 100% solid surface that is non-porous, easy to clean, and heat resistant. They're solid through and through.

**Kitchen Sinks and Vanity Bowls** Current stock includes the most popular 2 double-bowls and 1 single-bowl kitchen sinks, and 2 vanity sinks. Other profiles can be added as a special order.

**Three Colors are in Stock** The top-selling colors are ready for immediate shipment. White (01), Cameo (02) and Bisquit (08) are all in stock for Next Day Delivery.

**Performance Characteristics** Transolid Sinks meet a host of performance standards that will identify each sink as premium product. Wear and cleanability, fire ratings, stain and chemical resistance, boiled water resistance, and strength and hardness testing are all part of the Transolid Solid Surface Solution.

**A Transolid Promise** "Quality products you can be proud to sell, with industry leading value for the money."

# Aetna carries only the best 5.2mm Meranti Plywood.

Sure, there are cheaper alternatives out there. You can find 5.2mm Meranti as thin as 4.6mm ... possibly even 4.4mm. But you're probably asking for trouble. The quality of the faces, core and back will be poor. This can cause big problems, especially if it is used in the floor of a home.

At Aetna, our product is purchased to be a full 5.0mm thick (within tolerance). The quality is the best available. So you can steer clear of problems, wherever the product is used.

## Leave problems behind and go with the best! Call Us Today.

**PLYWOOD**

# Honduras Mahogany We Still Have It!

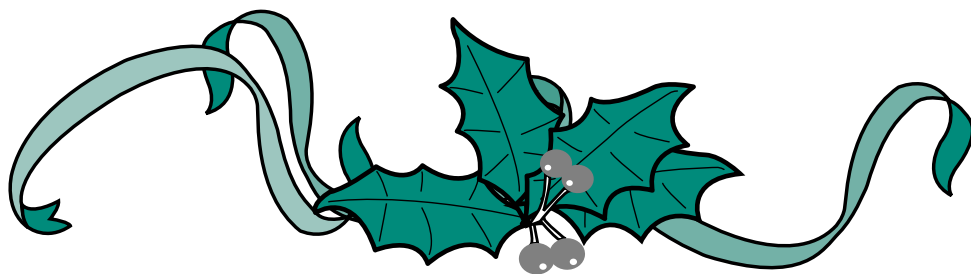

The future of Honduras Mahogany does not look bright. Brazil is the main source for Honduras Mahogany (*Swietenia Macrophylla*), and they've put a stop to the logging of Mahogany in their country. A small portion of Honduras Mahogany is still available in the marketplace, but only because the ban has been put on the harvesting of new logs and not on those already cut.

Luckily, Aetna Plywood has been buying up inventory and can help you with your needs today. We are also researching a good alternative for Honduras Mahogany for when the supply is gone. Please call us with any suggestions that you have for a replacement.
