A Solid new product, with a big difference

Aetna Plywood Inc., the leading distributor of wood and laminate products in the Midwest, has added a new solid surface product to its line-up, called Meganite.

Meganite is a 100% acrylic solid surface material, 1/2" thick, which not only has the sophisticated color and particulate of the leading brand, but also has the same performance characteristics, workmanship, quality and anti-bacterial benefits — at prices much lower. Meganite has been tested against a host of ASTM and NEMA standards and meets the performance characteristics that are essential for residential and commercial applications.

Meganite can be used in both residential and commercial applications, such as kitchen countertops, bath vanity tops, sinks, reception desks, conference tables and restaurant interiors.

Aetna offers the Midwest's largest selection of hardwood and softwood plywood, plastic laminate, panel products, lumber and woodworking hardware. Aetna Plywood is the exclusive provider of Meganite in Illinois, Wisconsin, Indiana, Ohio, Michigan, Minnesota and Iowa.
