DRAWER SIDES

Our UV Drawer Sides might be the easiest choice you make all year. Created from our UV Wood™ panels, these drawer sides are tough, beautiful and smart.

Smart? Absolutely. Because the manufacturers who choose them are going to save time and money. Columbia Forest Products drawer sides are coated on both sides with our UV Wood finish. This tough topcoat resists scratches, chips and the effects of solvent wipe down while saving on the material and labor cost associated with in-house finishing.

The efficiency doesn't stop with the finish, either. Our sides are grooved for 1/4-inch drawer bottoms, and edge banded with a matching finished veneer on the top, reducing assembly time. Plus, the sides are available in widths from 2 inches to 12 inches, in 2-inch increments, saving cut down time.

When you consider all the benefits, it should be easy to see why Columbia's UV Wood drawer sides are the simple solution for reducing the cost of building a drawer.

MAPLE PRE-FINISHED DRAWER SIDES

Specifications:

- 1/2" Natural Maple Plywood C/C VC (Poplar Core)
- U-V Filled 2-sides
- Pre-finished edge banding on flat top edge
- Slotted for 1/4" Drawer Bottom
- 10 pcs. in a bundle of one width

Special Introductory Prices Maple Drawer Sides

Code	Size	Minimum order: 11 bundles	Price Each
29 14 002	1/2" x 2" x 96"		\$5.50 each

Specialty Products

IN STOCK!

Extira

- Treated exterior composite board.
- The only wood product specifically designed for exterior use with a 5-year limited warranty.

IN STOCK!

Super Light MDF

- Produced from plantation grown radiata pine, "Superlight" MDF offers significant weight savings vs. regular MDF and excellent machineability.

IN STOCK!

Medex

- SCS agency certified, moisture resistant and formaldehyde free MDF.

IN STOCK!

Fire-Rated PB

- Class A, fire-rated western pine particleboard approved by the toughest building codes in the U.S. for commercial applications.

IN STOCK!

Moisture Resistant PB

- A premium Western Pine particleboard designed for interior use where moisture is an issue. In stock in a variety of sizes.

IN STOCK!

Ultra-Thin MDF

- 2.0 mm & 3/16" thick premium super-refined MDF, excellent for laminating high end veneers.

IN STOCK!

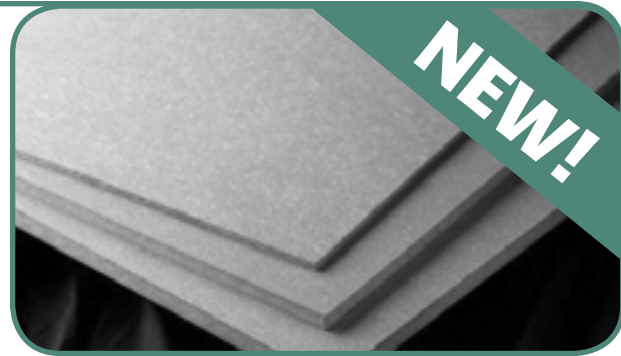

Woodstalk

- Products made from harvested wheat straw fiber and formaldehyde-free polyurethane resin. Excellent Machinability, Moisture Resistance, Smooth Surface, Lighter Weight and Reduced Tool Wear are some of the features and benefits of this product.

PANEL PRODUCTS

Introducing

WOOD (STALK™)

Setting New Standards for Machinable Fiberboard

Aetna Plywood is pleased to become your source for Dow BioProducts Inc.'s WOODSTALK™ fiberboard in the Chicagoland area. Award-winning WOODSTALK is the next generation of engineered fiberboard made from annually renewable wheat-straw fiber and quality exterior-grade formaldehyde-free polyurethane resin. It meets or exceeds performance specifications of high-quality particleboard and MDF without associated formaldehyde and VOC emissions. It's also environmentally responsible using straw that would otherwise be burned every fall releasing greenhouse gasses to the atmosphere. And, it's competitively priced!

JUST LOOK AT THE PERFORMANCE ADVANTAGES...

Excellent Machinability with Reduced Tool Wear

– Unique particle geometry produces intricate profiling, previously only available with high-quality particleboard and MDF. The clean wheat straw dramatically reduces cutting and routing tool wear, which trims your costs, maintenance and downtime, and increases productivity.

Light, Even Color Takes Coatings Well – Use with a variety of adhesive systems, paint, ink, stain, oil, lacquer, and polyurethane liquid coating systems with minimal “fiber pop” from water exposure. Consistent raw materials create a light, even-color surface, ideal for use under thin overlays or clear coated to attractively highlight the straw fibers.

Smooth Surface – Ideal for many laminating applications, including low basis weight papers, vinyls, foils, and real hardwood veneers.

Moisture Resistance – Exterior grade polyurethane resin holds its strength across moisture cycles making it suitable for interior applications with inadvertent contact with water.

Lighter Weight – Less weight than competing products eases handling and reduces shipping costs.

AWARD-WINNING RECOGNITION AS A “GREEN” PRODUCT...

Winner of Top-10 Green Building Product Award

BuildingGreen Inc., publisher of Environmental Building News monthly, awarded WOODSTALK fiberboard a Top 10 new “green” building product in its GreenSpec® Directory, recognizing WOODSTALK's formaldehyde-free, low-emissions composition and use of annually renewable agrifiber.

Choosing WOODSTALK products contributes directly or indirectly to L.E.E.D.† credits...

- IEQ Credit 4.4 and 4.5 - Low-Emitting Materials
- MR Credit 4.1 and 4.2 - Recycled Content
- MR Credit 5.1 and 5.2 - Local/Regional Materials
- MR Credit 6 - Rapidly Renewable Materials
- MR Credit 7 - Certified Wood
- DE Credit 1.1 - Innovation in Design

Available in a Variety of Sizes...

Aetna Plywood stocks WOODSTALK Gold Grade fiberboard in 4' x 8' and 4' x 10' panels in thicknesses of 1/4" to 1 1/8". We can also special-order panels from 4' to 5' wide and from 8' to 14' long.

PARTICLEBOARD

Aetna Plywood, your complete source for Fire-rated Aetna Particleboard: **AETNA FR**

Basic Use: Aetna FR is a class 1 rated fire retardant particleboard, suitable for a variety of industrial and commercial building applications where stringent building codes and public safety requirements are a factor. It can be drilled, routed, bullnosed, beveled and precision-machined. It is used as a substrate for wood veneers, high and low pressure laminates, as well as thin roll laminates. Laminated panels are then used in a wide variety of applications such as malls, offices, commercial case goods, hospitals, hotels, restaurants and any application where fire retardancy is a concern.

Composition and Materials: Aetna FR is made from western softwood particles and highly effective fire retardant chemicals bonded with special formulas of resins and waxes.

WITH OVER 100,000 SQUARE FEET OF FR IN STOCK, AETNA'S GOT YOU COVERED.

- 1/2" 4 x 8
- 5/8" 4 x 10
- 3/4" 4 x 8
- 3/4" 5 x 12
- 1/2" 4 x 10
- 11/16" 4 x 8
- 3/4" 4 x 10
- 1" 4 x 8
- 5/8" 4 x 8
- 11/16" 4 x 10
- 3/4" 5 x 10

A Class 1 at an affordable price.

FR MDF was developed specifically to meet the requirements of Class 1 fire retardation in accordance with UL Flame rating, while delivering performance and environmental features previously unavailable in an FR material.

Applications: FR MDF allows users to meet stricter building codes, reducing liability exposure and providing safer work places and living environments. It is the material choice for:

- Fire rated doors
- Elevator cabs
- Mouldings
- Raised floors
- Furniture and cabinetry
- Architectural millwork
- Wall systems
- Shelving and counter tops

UV WOOD

Pre-finished to give you a big head start.

UV WOOD is pre-finished with acrylate epoxy and cured with ultra violet light. This saves you valuable time and money, and eliminates exposure to harmful VOC emissions. And because it's pre-finished, UV WOOD is perfect for any application in which a clear, durable finish is required such as:

- Cabinets • End panels • Vanities • Shelving • Case goods • Drawer parts

Aetna now offers UV WOOD in virtually any combination of specie, grade and core. We currently stock UV WOOD in medium gloss, 48 1/2" x 96 1/2" oversize.

Unit size is 24 pieces for all items

The D.R.I.V.E. to help you succeed

What began as a modest enterprise during the 1930's has become the Midwest's largest distributor of wood, wood panels, laminate and woodworking hardware.

Our customers range from Fortune 500 to small specialty shops. You'll find our products in all the best places, from O'Hare Airport to the RCA Hoosier Dome, from the Empress Riverboat Casino to Water Tower Place.

But our most important asset is our people. People that understand the importance of quality and deadlines. Specialists that know their product areas inside and out.

Will-Call

Will-Call is available every weekday between the hours of 8am and 4pm. Just give us a few hours, and we'll have it ready and waiting for you.

Delivery

Our trucks are out making deliveries everyday of the week. Your location will determine how frequently we deliver to your precise location. But if your order doesn't arrive the next day, it will likely arrive within a day or two of that.

Selection

Aetna's truly your one stop shop for all your wood, surface and hardware needs.

- Hardwood plywood in virtually any specie, type, thickness, grade and core available.
- Hardwood lumber in any specie, rough or surfaced, straight line-rip one edge, you name it.
- Melamine, particleboard, medium density fiberboard.
- The largest selection of Wilsonart Laminate, including 250 "Standard" colors.
- Woodworking hardware, including a complete selection of hinges, drawer slides, screws/connectors, and decorative items.
- MEGANITE solid surface

Inventory

Aetna is committed to maintaining an unmatched depth of inventory in all of our product categories. This means less time waiting for deliveries, and more time satisfying your customers.

Fabrication

The only thing we cut better than wood products is your cost. Aetna is one of the Midwest's largest producer of component parts. We manufacture to your specifications using the latest high-tech equipment. Tell us what you need and we'll go to work for you.

Resources

We deliver more than the product. We deliver information as well. If you need a recommendation about a material, specie, grade, core or need other technical information then call or email us. If we don't know the answer, we'll get it for you.
