PALATINE, IL

A stylized illustration of a golf course scene. It includes a green with a white ball and a tee marker, a hole with a flag, and several trees in shades of teal and light blue. The background is a light teal color with a large, faint 'A' logo in the upper left corner.

JUNE VALUES FROM

The Aetna Plywood logo, consisting of a stylized 'A' in a circle followed by the text 'AETNA PLYWOOD' in bold, sans-serif font.

Pricing good through 6/30/05 or while supplies last.

BALTIC BIRCH 100% Birch Panel

Baltic Birch is an All-Birch plywood panel from Russia. The color of panels is carefully selected to provide a deep white, uniform pattern in order to meet the requirements of elite furniture manufacturers. The panel is made with many plies (ex. 18mm has 13 plies.) This provides a unique combination of strength, flexibility, and a perfect edge.

Furniture, cabinets, interior fittings, decoration, flooring, roofing, truck floors, concrete shuttering, specialty products and many other applications require the product with these characteristics.

Baltic Birch Veneer Grade Summary

Grade B This is a selected one-piece face, which is generally light and even in color. Some very small, closed pin knots may be allowed, as well as some brown streaks. No patches, voids, or mineral streaks are allowed. The surface is well sanded.

Grade BB This is a one-piece face, which is generally light and even in color. Occasional pin knots and mineral streaking is allowed. All open knots and defects other than those allowed in grade B have been cut out and replaced with oval patches. The patch veneer is the same grade and specie, and is typically of the same color. The surface is sanded.

Grade CP This is a face that has been graded out from BB for small defects and mineral streaking. CP typically has more patches than grade BB that may not always be matched for color. Some splits of less than 0.5mm are allowed. The surface is sanded.

Pricing good through June 30, 2005 as supplies last.
