Pricing good through 4/28/06 or while supplies last.

QUALITY FACTORS FOR AETNA SLOT-WALL PANELS

Aetna Slot-Wall panels are manufactured using only first quality MDF (medium density fiberboard). Although industry standards require a minimum Internal Bond of 90 PSI, we use MDF with an average Internal Bond of 105 PSI.

To slot the panels, we use Diamond Tipped cutting tools and the panels are slotted on precision equipment. The result is Slot-Wall panels that have precise slot dimensions and all slots are properly located from panel to panel. This ensures that the slots on one panel will line up properly with an adjacent panel.

For most retail applications, standard Slot-Wall panels have proven to be strong enough for display of merchandise. The use of our PVC insert or Aluminum insert will increase the hanging strength. Our aluminum extrusions are .040" thick and conform to the shape of the slot resulting in greater hanging strength for the Slot-Wall panel.

Face materials available include: Real hardwood veneers, high pressure laminates, melamine and paint grade MDF. Using Wilsonart brand laminate for the faces allows a wide range of colors, patterns, woodgrains and finishes. The lead time is lessened due to prompt availability of the laminate.

Other standard specifications are as follows: Groove spacing is 3" on center. Customized spacing is available in other configurations. Panel size is 48x96. Virtually any special size is available on custom order. Panel thickness is 3/4". For divider walls and displays, 1-1/2" panels are grooved on both sides and available on custom order.

More than 30 years of experience in manufacturing Slot-Wall and millions of square feet in the field indicates that Aetna Slot-Wall panels will perform to your complete satisfaction.

KIREI BOARD

Kirei Board Price List 4/2006

Item	H	W	L	10+ Sheets	1-9 Sheets
51 12 836	10mm	3'	x 6'	\$135.90	\$159.90
51 22 836	20mm	3'	x 6'	\$162.90	\$191.90
51 36 836	30mm	3'	x 6'	\$229.90	\$269.90

CLEAN AND BEAUTIFUL

Kirei Board is the new face of contemporary design: A beautiful natural material made with renewable, non-toxic components

Strong, lightweight and environmentally friendly, Kirei Board is an excellent substitute for wood in nearly any finished product.

Ideal uses for Kirei include:

- Cabinetry
- Furniture
- Paneling
- Finished products
- Store displays
- Restaurant interiors
- Interior wall coverings
- Office dividers
- Home decoration
- Flooring

**For Purchasing
information contact:**

1401 St. Charles Road, Maywood, IL 60153

Phone: 708-343-1515 Fax: 708-343-1616 (wood) 708-343-1333 (lamine)

www.aetnaplywood.com

ENVIRONMENTAL BENEFITS

Kirei Board reduces forest clear-cutting, air pollution and landfill use. The sorghum stalks used in the manufacture of Kirei Board are a rapidly renewable resource left after the edible portion of the plant is harvested.

REDUCED WASTE

Until now, these stalks have been discarded or burned, adding to landfill waste and pollution. Kirei Board helps reduce this waste and ease deforestation by substituting for wood.

ZERO FORMALDEHYDE

In addition, Kirei Board is made using a non-toxic adhesive that does not contain formalin, helping reduce toxic formaldehyde VOC's released into the ambient indoor air.

GREEN BUILDING

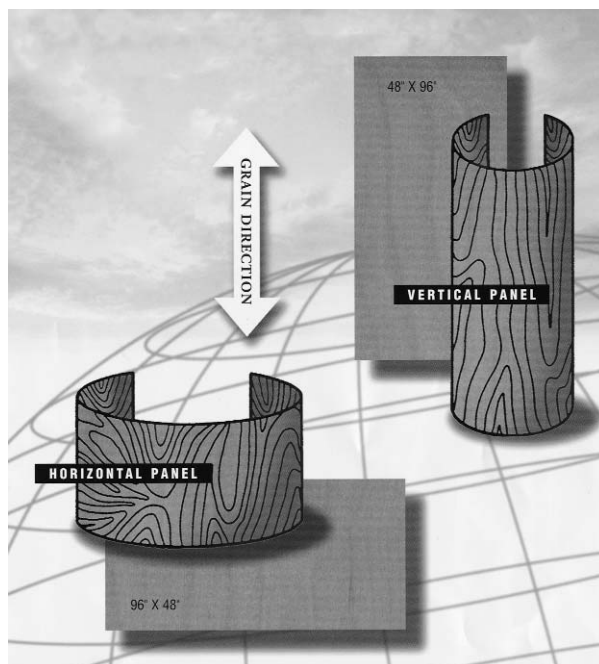

Kirei Board can be an excellent way to help your projects qualify for LEED credit for environmentally friendly construction.

Wiggle Wood®

HIGH QUALITY • FLEXIBLE • LIGHT WEIGHT

Wigglewood® provides maximum flexibility to conform to many shapes. It has numerous applications and capabilities for many industries. An easy to use panel which can be used on the job-site with no special tools.
