SAVINGS

AETNA + 60's™ = SAVINGS

Introducing the 60's™ a new line of 60-inch-wide hardwood plywood from Aetna. Produced on an innovative, new proprietary production line, these five-foot-wide panels can dramatically improve yield and reduce labor costs...which just happens to help improve profits. In fact, they're the ideal option for manufacturers looking to lower raw material and labor costs, as well as reduce waste.

Of course, having greater yield doesn't mean much without quality. And like all our products, the 60's are of superior quality. They're available with either particleboard or MDF cores and manufactured using state-of-the-art technology. Plus, they're available with most major rotary and plain sliced veneers, as well as paper backing, for options that make them perfect for almost any project.

IN STOCK AT AETNA TODAY

(Minimum order quantity is 10 sheets)

| CODE | ITEM | PRICE |
|-----------|--|--------------------|
| 05 22 580 | 3/4" 5 x 8 PS Red Oak A/1 MDF SM&N | \$75.00 ea. |
| 06-22-580 | 3/4" 5 x 8 PS White Maple A/1 MDF SM&N | \$92.00 ea. |
| 09-22-580 | 3/4" 5 x 8 PS Cherry A/1 MDF SM&N | \$95.00 ea. |

ALL PANELS ARE 1/2" OVERSIZE

60's PRODUCE BETTER YIELDS

This illustration is an example of increased yields for a 19-1/4" x 31-5/8" component utilizing a 5' x 8' panel. If 1,700 pieces were required, 284 four-foot panels would be used vs. 189 five-foot panels.

That's 95 fewer panels to handle with a 16% improvement in yield.

New 95% yield 5' x 8' Panel

Standard 79% yield 4' x 8' Panel

Features & Benefits

- * Better yield per panel for reduced waste and improved profits
- * Multiple core and veneer choices to fit a variety of applications
- * Large production volume for availability and quick delivery
- * Small unit quantities available so you only purchase what's needed
- * Available in a variety of hardwood face and back combinations, including paper backing

Pricing good through August 31, 2006 as supplies last.

Aetna Plywood, your complete source for Duraflake Fire-rated Duraflake Particleboard: MADE IN THE USA!!

Basic Use: Duraflake FR is a class 1 rated fire retardant particleboard, suitable for a variety of industrial and commercial building applications where stringent building codes and public safety requirements are a factor. It can be drilled, routed, bullnosed, beveled and precision-machined. It is used as a substrate for wood veneers, high and low pressure laminates, as well as thin roll laminates. Laminated panels are then used in a wide variety of applications such as malls, offices, commercial case goods, hospitals, hotels, restaurants and any application where fire retardancy is a concern.

Composition and Materials: Duraflake FR is made from western softwood particles and highly effective fire retardant chemicals bonded with special formulas of resins and waxes.

WITH OVER 100,000 SQUARE FEET OF FR IN STOCK, AETNA'S GOT YOU COVERED.

FIRE RATED MDF

FR MDF was developed specifically to meet the requirements of Class 1 fire retardation in accordance with UL Flame rating, while delivering performance and environmental features previously unavailable in an FR material.

Applications: FR MDF allows users to meet stricter building codes, reducing liability exposure and providing safer work places and living environments. It is the material choice for:

- Fire rated doors
- Raised floors
- Wall systems
- Elevator cabs
- Furniture and cabinetry
- Shelving and counter tops
- Mouldings
- Architectural millwork

HOT HOT HOT Alder Plywood

Fine face Alder veneer hardwood plywood from the Pacific Northwest.

Attractive and easy to work with, Alder is ideal for furniture and cabinetry. Its fine, light grain pattern and consistent color work well with any interior design, from rustic to contemporary.

With its pleasingly uniform colors in hues ranging from honey to pale brown and no visible boundary between heartwood and sapwood. Alder is easy to match and even easier to finish, accepting an impressive array of finishes from clear to dark cherry.

Alder ranks high in every major area of workability, including machining, sanding and gluing. Alder is the perfect choice for even the most complex machining and finishing projects

There are several choices in which you can purchase Alder from us.

Premium Tempered Hardboard

This hardboard is a fully-tempered board and smooth on two sides. It is very dense and rigid, making it ideal for painting and any purpose where you would want a strong board.

Aetna now stocks Duron in these sizes:

- **1/8" 48 x 96** • **.22" 48 x 96** • **.22" 48 x 96 PERF.**
- **1/8" 48 x 120** • **.22" 48 x 120**
- **1/8" 60 x 96** • **.22" 60 x 96**

Note: all 1/8" items are stocked on a skid to keep them flat.

SPECIAL AUGUST PRICING ON DURON:

| CODE | ITEM | UNIT SIZE | 1 UNIT* | 2 UNITS PLUS |

F R L

Fiberglass Reinforced Laminate

What is FRL?

A wall surfacing solution from Panolam Industries.

Where can FRL be used?

Wall applications in hospitals, schools, fast food restaurants, department stores and high density public areas such as airports or mass transit facilities.

What are the benefits of FRL?

- Class A Fire Rated for flame spread and Development
- High Impact Strength, conceived as a “wall you can walk on”
- Durable and easy to clean surface
- Solid, monolithic, with fiber re-reinforcement gives FRL unique qualities for ease of application for job-site workability

So FRL can be applied directly onto a wall?

Yes, FRL in the .088" thickness is designed for job-site applications. Call us for an installation guide.

Is FRL available in different colors or patterns?

FRL is available in all 320 Panolam & Pionite colors.

Is FRL available with different surface textures?

Yes, FRL is available in 4 textures; Suede, Ashwood, Soft leather and Crystal.

How thick is FRL?

FRL is available in .088" for wall applications and .048" for lamination onto a substrate like Duraflake Fire-Rated particleboard.

What panel sizes are available in FRL?

FRL panels are available in 3'x12', 4'x8', 4'x10', 4'x12', 5'x8', 5'x10' and 5'x12'.

Can I use FRL for a Wainscoting application?

FRL is perfect for wainscoting since it's available in a 3'x12' panel size and may be specified as “cross-grained”.

How do I order FRL?

Determine thickness, panels size and pattern name or number and **CALL AETNA PLYWOOD!**
