AETNA Is Stocking Homasote 440 Sound Barrier®

YESTERDAY'S NEWS IS TODAY'S COMPETITIVE EDGE.

Homasote 440 Sound Barrier® is made of 100% post-consumer waste paper, without asbestos or urea formaldehyde. So it not only stamps out noise pollution, it is safe and environmentally sound.

BREAKTHROUGH BUT VIRTUALLY UNBREAKABLE.

Homasote 440 Sound Barrier® is the lightweight, structural sound deadening material that replaces lightweight concrete at a fraction of the cost. It works with almost any flooring system and has twice the R value of wood. Unlike concrete, it can be installed quickly and easily by the same crew laying the plywood sub-floor, for faster lower-cost job completion. It's so strong, lightweight, impact-resistant and easy to work with, it's hard to believe how effective it is.

| Code | Size | Unit Size | Price/piece | Price/unit |
|------------------|--------------|-----------|-------------|------------|
| 17 14 200 | 1/2" 48 x 96 | 60 | \$21.90 | \$20.00 |

| Thickness | Sizes | Weight lbs./sq. ft. |
|--|---|---------------------|
| OTHER SIZES AVAILABLE AS SPECIAL ORDER | | |
| 1/2" | 4 x 4, 4 x 8, 4 x 12, 4 x 10, 8 x 12, 5 x 8 | 1.2 |
| 5/8" | 4 x 8, 4 x 12, 8 x 12 | 1.5 |

Sound Deadening
Deadens sound in residential or commercial buildings. Used in single or multi-family housing, professional buildings. Useful in room partitions.

Bulletin Boards
440 becomes the quick, inexpensive, tackable answer, exterior or interior for any home, office, workshop, factory, etc. Can be painted.

Fabric Wrap Wall Treatments
Ideal substrate for custom textured fabric wrap panels. Provides sound deadening, insulation and tackability.

Pricing good through July 29, 2011 as supplies last.

BEADED PANELS

The look of fine tongue and groove woodwork with the installation ease of a plywood sheet. That's the beauty of Columbia Forest Products' Beaded Panels. Check out the surface and you'll find the lasting beauty of Columbia hardwood veneers...and that's no illusion.

Good looks and installation ease are just the beginning. Columbia's Beaded Panels feature a wide variety of decorative hardwood faces and backs machined with a 1-1/2" or 3" on-center beaded groove pattern. The cutting heads are calibrated to ensure pattern uniformity across the entire sheet for a convincing illusion of tongue and groove woodwork that matches any existing species used. And since Beaded Panels are unfinished, close color matching with existing molding and millwork is possible. You can finish them or use them in painted applications.

Beaded Panels can be used for wall paneling, wainscoting, cabinet doors, cabinet backers or anywhere you wish to replicate the tongue and grooved appearance of fine woodwork.

PREMIER® FIRE RATED MDF

When you need a flame-retardant MDF solution for your paneling, cabinetry, shelving, trim and furniture needs, Flakeboard Premier® FR MDF is best in class. Our Class A/Class 1 rated fire-retardant MDF panels are ideal for interior, non-structural use in public areas such as schools, hotels, hospitals and restaurants.

Premier® FR MDF's design flexibility and workability make it an ideal choice for a variety of applications

Flakeboard Premier® FR MDF delivers:

- Smooth surface properties for painting or laminating
- Dense, flat surfaces for easy machining
- Uniform fibre distribution and texture
- Sharp edges and strong internal bond
- Good acoustical dampening properties
- The right thickness for thick board applications

Aetna Plywood stocks an extensive inventory of PREMIER® FIRE RATED MDF

| Stocked Sizes | | | | |

Other sizes and thicknesses may also be available — *Please call*

- FSC certified is also available
- Please refer to manufacturer's Specifications and Product Limitations prior to using this product

USAGE NOTES

Some laminates and coatings applied to Premier® FR MDF may change the flame spread rating. Standard available woodworking glues have been successfully used in lamination. Any adhesive should be tested for compatibility with the chemical system in Premier® FR MDF prior to full-scale gluing. Questions should be directed to the glue supplier.
